**Section 4 - FIRST AID MEASURES**

**Inhalation**
If inhaled, immediately remove the affected person to fresh air. If the affected person is not breathing,
apply artificial respiration. Call a physician if symptoms develop or persist.

**Skin**
For skin contact flush with large amounts of water while removing contaminated clothing. If irritation
develops or persists, seek medical attention. If skin still feels slippery, caustic maybe still present in large
enough quantities to cause rash burn. Continue to wash the affective area until it does not feel slippery.

**Eyes**
Immediately flush eyes with water for at least 15 minutes, while holding eyelids open. Seek medical attention at once.

**Ingestion**
Do not induce vomiting unless directed to do so by medical personnel. If conscious, drink large quantities of water or acidic beverages like tomato or orange juice or carbonated soft drinks. If vomiting does occur administer additional water. Never give anything by mouth to a victim who is unconscious or is having convulsions. Get medical attention or advice.

**Most Important Symptoms/Effects**

**Acute**
Causes severe irritation or burns to the eyes, skin, gastrointestinal tract, and respiratory system.

---

**Section 5 - FIRE FIGHTING MEASURES**

**Extinguishing Media**

**Suitable Extinguishing Media**
Dry chemical, foam, carbon dioxide, water fog.

**Unsuitable Extinguishing Media**
None known.

**Special Hazards Arising from the Chemical**
None identified.

**Hazardous Combustion Products**
None.

**Fire Fighting Measures**
Firefighters should wear full protective clothing including self contained breathing apparatus.

---

**Section 6 - ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**
Isolate area. Keep unnecessary personnel away. Persons not wearing appropriate protective equipment should be excluded from area of spill until clean-up has been completed.

**Methods and Materials for Containment and Cleaning Up**
Contain the discharged material. Stop source of leak if possible. Block any potential routes to water systems. Ventilate the contaminated area. Absorb spilled product with a commercial oil absorbent, such as sand or earth. Shovel absorbed material into appropriate container for disposal. Wear appropriate protective equipment and clothing during clean-up. Avoid skin contact and inhalation of vapors during disposal of spills. Isolate area. Keep unnecessary personnel away. Follow all Local, State, Federal and Provincial regulations for disposal. Surfaces may become slippery after spillage. Neutralize with dilute acid. Flush spill area with water followed by liberal coverage of sodium bicarbonate.
Environmental Precautions
Do not allow the spilled product to enter public drainage system or open water courses.

Section 7 - HANDLING AND STORAGE

Precautions for Safe Handling
Avoid getting this material into contact with your skin and eyes. Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling.

Conditions for Safe Storage, Including any Incompatibilities
